

DD/Pers

12 May 1961

C/PPS 2927 Curie

Attached are pertinent extracts from papers concerning the IG's 1960 report on Training in connection with a recommendation on military reserve training.

The DDCI has required that a report of progress on implementation of approved recommendations be made to him by 25 June 1961. The Office of Training has principal responsibility for preparing this report but the Office of Personnel will be expected to contribute regarding those items for which it carries or shares action responsibility.

I will coordinate with the Plans and Policy Staff on OP responsibilities in general but separate action assignments are being made within the Office of Personnel as appropriate.

The C/PPS/OTR has indicated that his membership in the military reserve training advisory committee will enable him to report progress to the DDCI. However, we shall look to you to serve as the representative of the Director of Personnel in this connection and to assist as appropriate in preparing or reviewing proposed reports.
